**Subject:** update

Hi Greg,

Thank you for your willingness to assist us in the Gold King mine spill response effort. Could you let me know when you have received your supervisor's approval to assist us? We can definitely use your assistance and I have submitted your name here for processing. Your role would start as soon as you are processed (we are hoping today; I will let you know when I get the go-ahead). You would be helping us communicate with folks in NM to identify irrigation and livestock water supply needs (later, I can give you a better sense of what exact questions we are looking to answer.) You may be able to do much of the work from your desk, but we would need to receive updates from you periodically (several times throughout day).

Thank you again!

Melinda
